**General Information**

The Paradigm Handheld Touchscreen Docking Station connects to the Paradigm control system using NetConnect. This base station for the Handheld Touchscreen provides a secure docking point and can be tilted to a range of angles for operation and viewing, including low-profile uses. The unique Docking Station design lets you put your Touchscreen controls wherever they are needed – on a conference table, at a podium or on any work surface. When your Handheld Touchscreen is undocked, the Handheld Docking Station provides powerful MeshConnect wireless connectivity to the Handheld Touchscreen. The Dock can also be used for charging the Touchscreen battery.

**Applications**
- Houses of worship
- Hotels
- Convention centers
- Meeting rooms

**Features**
- Provides a wired and wireless interface for Paradigm Handheld Touchscreens to the lighting control network
- Provides a convenient charging location for Handheld Touchscreens
- Articulating docking cradle allows users to adjust the angle of the screen to avoid glare
- Powered by a standard a PoE network or included low-voltage DC power supply
- NetConnect: Ethernet connectivity to the lighting control system using low-cost, easy-to-install Cat5
- MeshConnect: Provides wireless connectivity from Paradigm Handheld Touchscreen Stations

ETC® Unison Paradigm® Handheld Touchscreen Docking Station

**Unison Control Series**

**SPECIFICATIONS**

**MECHANICAL**
- Black anodized extruded aluminum base
- Clear anodized extruded aluminum docking cradle
- Articulating docking cradle supports tilting from 10 degrees to 80 degrees
- Magnetic retention of docked touchscreen station
- Secure cable attachment using a standard Kensington locking cable
- Ten-pin docking connector for high-speed data connection between docked handheld station and control system
- Low-profile wireless antenna
- Six-foot Cat5, RJ-45 cable included

**ELECTRICAL**
- Supports 12Vdc power supply (included) or PoE power input
- Connects to lighting control system using NetConnect
  - Standard Ethernet networking with Power over Ethernet
  - Compliant with IEEE 802.3i for 10BASE-T networks
  - Compliant with IEEE 802.3u for 100BASE-TX networks
  - Compliant with IEEE 802.3af for Power over Ethernet
- MeshConnect communication with Handheld Touchscreen uses IEEE 802.15 low-power ZigBee communication
- Provides charging capabilities for Handheld Touchscreen
  - Full charge in six hours using Power over Ethernet
  - Full charge in four hours using 12Vdc power supply
- Provides status indicators for Power, Ethernet Connectivity, and wireless Transmit and Receive
- Meets or exceeds EN60950-1, N55103-1, EN55103-2 and IEC1000-4-2
- UL and cUL Listed, CE Marked

**THERMAL**
- Ambient room temperature: 0-40°C / 32-104°F
- Ambient humidity: 10-95% non-condensing
